

My Very Amazing Thesis Title

Matěj Novák

26. 6. 2026

Supervisor: Ing. Jan Novotný, Ph.D.

Motivation

- What problem does your thesis address?
- Why is it interesting or important?
 - Point one
 - Point two

Goals

1. First goal of your thesis
2. Second goal of your thesis
3. Evaluation:
 - How do you measure success?
 - What baselines do you compare against?

Background

- Define the key concepts relevant to your thesis
- For example, an optimization objective: $\min_{\theta} \mathcal{L}(\theta) = \mathbb{E}[f(x; \theta)]$

Methods

- Method A:
 - Brief description
- Method B:
 - Brief description
- Method C:
 - Brief description

Theorem or definition

A very crucial concept:

$$\mathbb{E}[X] = \sum_{i=1}^n x_i \cdot p_X(x_i)$$

Results

Method	Score
Method A	85.3%
Method B	78.1%
Method C	91.7%

- **Method C** achieved the best results
- Method A outperformed Method B

Conclusion and Future Work

- Summary of your main contributions
- What worked well, what didn't
- Future work:
 - Possible extension 1
 - Possible extension 2
 - Possible extension 3
